HTML strong tag

Example

Define important text in a document:

This text is important!

Definition and Usage

The `<strong>` tag is used to define text with strong importance. The content inside is typically displayed in **bold**.

Tip: Use the <u>\<b></u> tag to specify bold text without any extra importance!

Browser Support

Element					
<strong>	Yes	Yes	Yes	Yes	Yes

Global Attributes

The `<strong>` tag also supports the <u>Global Attributes in HTML</u>.

Event Attributes

The `<strong>` tag also supports the <u>Event Attributes in HTML</u>.
